—Advices from the west coast of Africa relate the slaughter of seventy British troops by the natives, in the British post to the town of Malakal, on the coast river, May 23d, as punishment on payment of a fine.

THE MORMONS DEPARTING GOVERNMENT. News from Utah confirms the report of the departure of United States army by the Mormons. A correspondent from Omaha under date of July 1st, after conversing with all the Mail Train men who had just arrived from Salt City, says:

The news from Salt Lake is of a very interesting character, as there is every prospect of a difficult departure of the Mormons and the U. S. Government. They do not leave the government; do not live in the glorious state and stripes of the army, but have a flag of their own, representing a bee hive, and embellished with rays of Brigham Young, Joe Smith, other Mormon dignitaries. They have a man drilled once a week, who is able to lead a company of men.

They have a factory of their own, and manufacture Colt's celebrated revolver, each soldier has from one to three, and is bound to obey Brigham Young implicitly in everything. He has from one hundred and fifty to two hundred men, and they are all missionaries out among the Sioux, they are exerting all their influence to get on hostilities between them and the Government. This is the opinion of Garlandhurst, the Indian agent at this place.

RIGHT WE TO FAN IN CHURCH.—The York Churchmen must have been at sea in fault finding when it seriously entered upon a crusade against the use of churches, denouncing the usage as just irreverent and in contravention of its principles—"an act of gross irreverence, not to say impiety." We devoutly wish the good gentleman who owns such a conscience, unless he happens to be as marble and hard as stone, which surely must be to hold such doctrines in his climate in the melting, scorching, burning months of July and August. The report rests his position on the fact that professors of Christianity should offer the flesh and practice self-denial, therefore should not fan themselves during the hours of divine worship. We suppose that there would be little capacity for devotion if the suffocating temperature of the house were not counteracted by use of the fan.

GLoucester FISHERIES.—Upwards of a hundred vessels, worth with outfit, half million of dollars, and manned by five of twelve hundred men, have sailed the Bay Chaleur, from Gloucester, since July 1st. That port will send into the fish waters this year about two hundred vessels. It is hoped that many vessels will be enabled to return by the first of September, with full fares, and then proceed on second trip, to return the last of November. The Cod fishermen of Gloucester have been very successful of late, and the fish and Georges fisheries have been profitable. We trust the season will terminate more favorably than it commenced early in the spring the vessels were peculiarly unfortunate.—*Transcript.*

Why is thirty-nine the number of lashes Christian selects as the maximum for "flogging?" asked the Brahmin-Poo of Old Roger. Old Roger caught a moment. The question was a castic one, and conveyed a severe rebuke. "I suppose," said he, "it is to put it within the limit of human fortitude." He Brahmin stroked his long beard and long tassel on his cap vibrated like a diadem.—*Boston Post.*

The London Times publishes the evidence of a London wine merchant, named Borne, giving the particulars of the mania which condemned sour wines are de into fine old Ports in the London docks. The whole manufacture of the wine is carried on in the docks, and the mania which the manufacture is tried on.

The Russian war, says the Calais (Me.)vertiser, seems to have a good effect on a lumber business on this river, as we in there are two large vessels now being driven by the Messrs. Porter with lumber from France and Spain, and that they have several cargoes to France previous this season, amounting in all to over one million of feet.

HEAVY ROBBERY.—Mr. S. D. Carpenter, proprietor of the Wisconsin Patriot, was robbed, week before last, while riding in the train that State, of nearly \$11,000, most in bills of Ohio and Indiana banks. The money was in a small satchel, which was taken from him while he drowsed, as he had been deprived of his sleep for several nights.

An English writer classifies old maids and bachelors as "solitary mature men and women who have nothing happening to them."

COAL FREIGHTS.—The Pottsville (Pa.) Journal states that "it is never known the freight from Port Richmond to the East so low as they are at present. \$1.37 per ton is the lowest figure, we believe, at which it was ever quoted before. We now quote freight to Boston at \$1.25, and to Providence \$1.15 per ton. Free-traders have yet to learn the commerce of a country, and the shipping interests, prosper just in proportion as the domestic productions of the country are developed, fostered, and extended. The foreign and domestic commerce of every country depends entirely upon the amount of its domestic productions, and every tariff policy that has a tendency to diminish the domestic productions of a nation, strikes as effectual a blow against the commerce of that country as it does against manufacturers and producers thereof."

"Now, girls," said Mrs. Partington the other day to her nieces, "you must get husbands as soon as possible, or they'll be murdered." "Why so, aunt?" "Why, I see by the paper that we've got almost fifteen thousand Post Offices, and nearly all on 'em dispatches a mail every day. The Lord have mercy on us poor widows!"—And the old lady stepped quickly to the looking-glass to put on her new cap.

A man in Brooklyn advertised on Wednesday for clerks to go to New Brunswick. He had plenty of applications, and made an engagement for one year with two young men, and in order to feel assured that they would not disappoint him, he requested them to leave their watches, and they complied. The young men then left—and so did their "employer."

The New England Washingtonian says:—For insipient consumption, we know of no better remedy than

WINTER'S BALM OF WILD CHERRY.
It is soothing and healing in its nature, and is admirably adapted to allay and dissipate that annoying and distressing irritation so much prevalent at this season of the year, caused by colds, coughs, and chills brought on by frequent and sudden changes of the weather. We know of several severe cases which have been radically cured by the use of this Balm. Some two years since a friend of ours was suffering under what was thought to be a confirmed consumption—a severe cough, loss of appetite, night sweats, &c. By the use of the Balm he dispelled those alarming encroachments, and is now in the enjoyment of comparative good health.

They always do good, and are sold at the low price of 25 cts for a pint and 37 1/2 cts for quart bottles.

Holloway's Pills, an unfailing remedy for all disorders of the chest and lungs.—Oliver Thompson, of Little Falls, New York, was certainly, in a most deplorable state of health ten weeks ago; his lungs, so the doctors told him, were completely gone, his chest, and in fact his body generally, was so badly affected with phthisis, that he had become. In addition to this, he had a cough which shook him to pieces (these are his own words); he has just called on Professor Holloway to inform him that all these complaints have been removed by Holloway's pills, and he now feels better than ever he did in his life. These Pills will readily remove all diseases of the stomach and bowels.

VALUABLE FARM FOR SALE.
WILL BE SOLD by Auction on Wednesday, September 5th on the premises, at noon, by order of the Administrator and Guardian, and under direction of the Hon. Court of Probate of the City and County of Newport, the valuable Farm in Charleston, Washington County, known as the Champlin Farm.

The Farm is situated on the post-road, about 12 miles from Westerly, and 6 from the Stonington Railroad. It can be reached from the Richmond Switch, and the post-road passes directly through the farm. The wooded portion consists of at least 175 acres of oak, which will average 50 cords to the acre, and some of it will cut 50 cords. The remainder of the farm, with the exception of a few swampy places near the farm, is under cultivation, and is free from stone. Watching Pond is a fresh water stream; Ningret Pond, on the South, connects with the sea. This pond, which separates the farm from the beach, is at this point about a hundred rods wide. On it there is a new saw, belonging exclusively to the farm, capable of carrying a loaded team from the beach, shortening the distance to the shore four or five miles, and affording facilities for carrying fish and sea-weed. The house stands over a greater portion of the farm, taking in Point Judith and Watch Hill Lights, Block Island and an extended sea view. The out-buildings are convenient, and the barn will hold fifty tons of hay. [Aug 4.]
